

Encore Creative is Now Largest Provider in US Market for FogScreen, Inc.

*Leader in Innovative Designs Partnering with
FogScreen, Inc. to Personalize Corporate Meetings,
Trade Shows and Other High-End Events*

Helsinki, Finland - May 21, 2008 - FogScreen, Inc., creators of the world's first walk-through projection screen made of "dry" fog, and Encore Creative, delivering superior design and event-planning services for over two decades, are proud to announce that Encore Creative's inventory now contains five interlinkable FogScreen® One (one meter) projection screens, making them the largest provider of FogScreen projection screens in the US.

Encore Creative, the leaders in delivering intricately designed visuals for high-end events - personalized for any size and scope - are now employing their creative abilities with the FogScreen projection screen to transform events into memorable, one-of-a-kind experiences. The creative and dedicated staff has perfected the art of seamlessly integrating the screen of dry fog into the overall theme of the events themselves. Because Encore Creative implements the high-tech, high-touch screen into the very fabric of the events, it allows them to mesmerize clients in a never-before-seen way.

"Carrying the largest inventory of FogScreen projection screens in the US is a crucial step into what we see as a huge growth opportunity into the special events market," said Jeff Lowy, President of Encore Creative. "Our team is dedicated to providing memorable experiences for clients that are always on the lookout for something technologically hip and edgy. Having the FogScreen projection screens in our inventory gives us the ability to reach new creative heights for all our personalized events."

"FogScreen, Inc. is proud to have Encore Creative as the largest provider of screens for a US market primed to be entertained in exciting and memorable ways," said Jordan Woods, President of U.S. Operations at FogScreen, Inc. "Encore Creative has a wonderful way of integrating the FogScreen projection screens into the overall theme of their events. Whether it's a corporate meeting in need of creative flair or a high-end party that demands a personalized touch, Encore Creative always creates memorable experiences to dazzle attendees."

Encore Creative, FogScreen, Inc.'s Platinum partner for Arizona, also strives to bring the world of fixed installations to high-end events. By building personalized sets directly around the FogScreen projection screen - giving it a look and feel of a

permanent install - it ensures the high-tech device is a central figure of the event itself. Everything from corporate logos to family photos and movie footage can be projected onto the screen, allowing attendees to walk right through personalized images at preferred locations, such as entrances, on stage and any other place where there is a desire to "wow" event-goers.

About Encore Creative:

Encore Creative emerged from the 2006 merger of sister companies Encore Entertainment and Creative Decorating & Display. For nearly three decades, the two independent and well-established Phoenix-based companies worked hand-in-hand to deliver superior entertainment, design, decorating and event planning services. In 2007, the company expanded its event staging capabilities through the acquisition of corporate staging firm Set Monsters. Encore Creative's ongoing efforts to deliver the latest in event planning and staging services led to a partnership with FogScreen, Inc., in 2008. As FogScreen's only Platinum Partner in Arizona, Encore Creative now can incorporate the use of this revolutionary walk-through projection screen technology made using "dry" fog into virtually any meeting or event. About FogScreen, Inc.:

FogScreen, Inc., provides an innovative and award-winning projection screen technology that creates magical experiences and stunning visual effects that "wow" and captivate audiences. Its patented technology creates the world's first "walk-through" projection screen. With the use of ordinary tap water and digital technology, FogScreen projection screen enables projected images to literally float in the air, creating a brand new medium to captivate and fascinate audiences. The highly innovative yet simple-to-use product has been utilized to enhance product launches, trade shows, live entertainment, nightclubs, museums, theme parks and even private parties. FogScreen has won numerous honors, including the Best Special Effect by the Club World Awards. Select customers include Disney, Nokia, 20th Century Fox, Harrah's, Victoria's Secret, P&G, Motorola, Sony, Siemens, Microsoft and many others. For more information, visit www.FogScreen.com.
